

Pricing

Weddings:

- **\$2,800** for the first five hours of coverage (\$250 for each additional hour). A average wedding runs about eight hours.
 - I am able to keep my prices lower compared to other photographers, because I don't print any photos. Instead, I give you a DVD with all the images. The DVD includes two folders: one folder has all the original images and the other folder has all the color corrected and edited images. This way printing is up to you and gives you instant access to all of your images from the start.
 - If you do choose me as your photographer, all I ask for is a non-refundable deposit of \$500 to lock in your date and time.
-

Engagement Shoots:

- **\$500 per shoot**
 - You will receive a DVD or an electronic folder with all the edited and color corrected images.
 - Change as many times as you want and go where you want.
 - Depending on requirements/location the price may change.
-

Family Portrait or Pregnancy Shoots:

- **\$500 per shoot**
 - You will receive a DVD or an electronic folder with all the edited and color corrected images.
 - Change as many times as you want and go where you want.
 - Depending on requirements/location the price may change.
-

Headshots:

- **\$300 per shoot** which includes at least 10 color corrected and edited images.
 - Either done in studio or out on location, your choice.
-
